

## BIKE-TRANSIT CENTERS IMPLEMENTATION PLAN

# Project Overview

## WHAT ARE BIKE TRANSIT CENTERS?

Bike-transit centers are attended or unattended facilities located adjacent to transit stops that provide secure, fee-based bicycle-parking. Other amenities might include transit sales and information, bicycle repairs and accessory sales, and/or vehicle-sharing services.

The purpose of bike-transit centers are to:

- Improve bicycle and transit linkages
- Provide transportation options
- Encourage alternative commutes
- Improve mobility
- Reduce vehicular emissions and congestion
- Enhance community livability

## PROJECT GOAL

The goal of the Bike-Transit Center Implementation Plan is to lay the groundwork for a network of multi-modal facilities along transit lines throughout Los Angeles County.
